Android Configuration 4.11 Screen Layout Setup

Liquid UI for Android enables you to modify the SAP screen layout for optimal screen usage and better readability without programming. The screen layout setup provides you with four options, Hide Title Bar on Scroll, Hide Transaction Code Entry, Hide Push-button Toolbar, and Fullscreen mode. These options allow you to hide unnecessary elements on the SAP screen as per the requirement. This document illustrates these options and how to enable them.

1. Navigate through the **App Settings** under **Main Menu**, as shown below.

- 2. **Scroll down** the App Settings screen (Insider) and select the **Screen Layout Setup**. This opens a pop-up with the following options:
 - Hide Title Bar on scroll
 - Hide Transaction code Entry
 - Hide Push button Toolbar
 - Fullscreen mode
