# Getting Started with iOS 1.11 Activating A Free Trial License - iOS

Once you have consulted about your SAP needs with one of our Synactive Liquid UI Reps and the appropriate license has been determined, you will receive an email from our Liquid UI Access Management Portal.

There are 2 ways to activate your trial license

**Note**: You must have downloaded and installed the Liquid UI for iOS app (<u>learn</u> <u>more about how to download and install the app</u>).</u>

#### License Activation Link

1. Click the **License Activation Link** in the email from your iOS device and open it with the Liquid UI app.

2. Once your license is installed, you are all set to work on your Liquid UI for iOS app.

#### **QR Code**

If, due to some reasons, you are unable to install the app license through the link, then you can use the **QR code** to install it, as shown below:

1. Open the license email from LAMP (Liquid UI Access Management Portal) on your desktop or other devices that allow your Liquid UI for iOS app to scan the QR code.
