iOS Installation 3.3.1 Client License

The **Client License** enables direct native connection to SAP along with printing from SAP, attaching files in SAP, and more, making it ideal for enterprises that do not require SAP customization. With a valid license, the Liquid UI for iOS App provides increased flexibility to work on your SAP applications and gives you full access to all the Liquid UI features.

Note: To learn more about the features supported by the client license, click here.

You can buy a client license in two easy ways.

- 1. The app directly provides, the **Purchase Through In-App** option under the main menu.
- 2. It can also be obtained through an email at rfi@guixt.com, requesting a client license for your iOS device with the following details.
 - SAP installation number
 - SAP system ID

Note: You can find this information in the status window of the SAP.

Purchase Through In-App

The following steps will walk you through how to buy a client license directly from the App Store (Purchase through In-App) option.

1. Open Liquid UI for SAP App and navigate to the <u>Main menu</u> --> Purchase License.

2. Click the **Buy Client License** button. You can buy a client license for one month or a year as per the requirement.
