iOS Usability

About Dialog

- Click on the 'Liquid UI' at the bottom left corner of the statusline to launch the 'About GuiXT Liquid UI' dialog as shown below:

iOS Usability

iOS Usability

From this dialog, you can send email to Synactive support and also view the list of verified transactions for use with a direct connection to SAP. To view the list of verified transactions, click the Verified Transactions button in the dialog. To contact Synactive Support, click the Support button. The Apple email client will launch and send an email to Synactive.

Note: You must have email setup and correctly configured to send email from your device.
