

Designer User Interface

6.09 Designer - Help Menu

The Help menu is shown below.

This menu contains the following options.

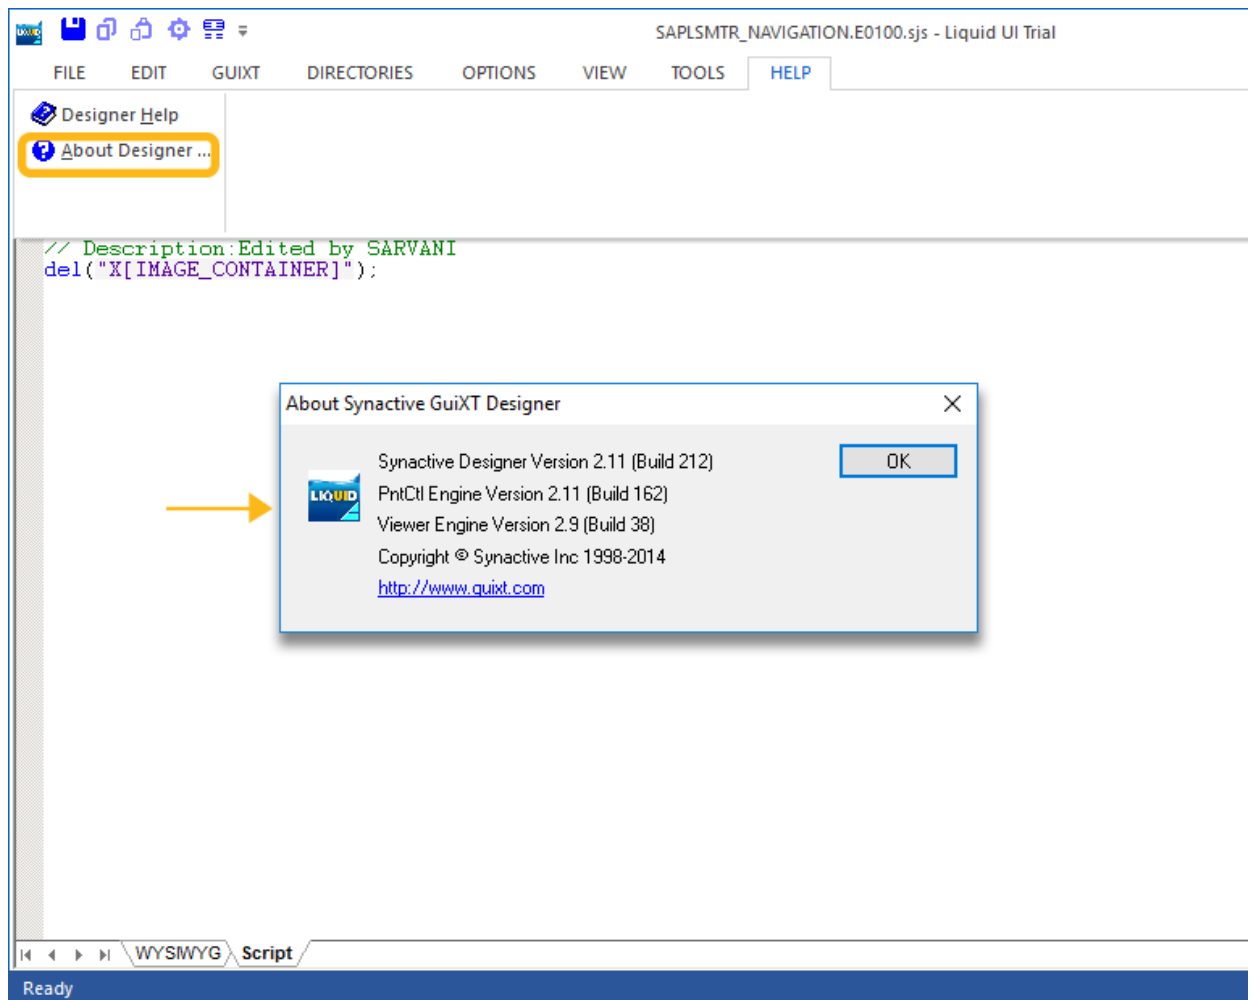

Designer Help

Opens the built-in Help. This is currently disabled as Designer documentation is available on the [Synactive website](https://www.synactive.com). You can also invoke this option from the Standard toolbar.

About

Opens the About dialog. This contains the version number and copyright information. The About dialog appears as shown below. You can also invoke this option from the Standard toolbar.

Designer User Interface
