### 4.03 Main menu

Liquid UI for iOS App consists of the **Main Menu** icon located at the upper right corner of the home screen. It helps the users in configuring their App. The Main Menu consists of various settings for your Liquid UI Client, that help in the configuration of your Application. These settings are described in detail below:

- App Settings
- License Server Sync
- Scan Liquid UI QR Code
- <u>Request License</u>
- <u>Certificates Management</u>
- <u>Clear Cache</u>
- <u>About</u>

### 1. App Settings

App Settings present in the Main Menu enables you to configure Linea Scanner, restore the SAP connection settings from iCloud and Backup settings to iCloud.

					1 About

<u>Configure Linea Scanner</u> is about Barcode Scanner configuration. Liquid UI for iOS supports barcode scanning and it enables iOS users to populate any SAP field with a single click.

<u>Restore settings from iCloud</u> enables iOS users to restore the SAP Connections from iCloud.

Page 2 / 8 (c) 2024 Liquid UI | Synactive | GuiXT <dev@guixt.com> | 2024-07-31 17:59 URL: https://www.guixt.com/knowledge\_base/content/37/996/en/403-main-menu.html

<u>Backup settings to iCloud</u> enable you to maintain a backup of SAP Connections on iCloud.

### 2. License Server Sync

Tap on License Server Sync to update your SAP connection list on Server Connections. You can see this Sync option after installing the valid license on your iOS device. It only updates the connections that are associated with "Portal / Enterprise" License".

To know more about adding SAP connections and Synchronizing them on Liquid UI for iOS, <u>click here</u>.

### 3. Scan Liquid UI QR Code

Scan Liquid UI QR Code option enables you to add SAP Server connection or license Page 3 / 8

with the help of device camera. This QR Code is generated by Synactive Connection Transmitter application. Once the QR Code is generated, align it within the frame to scan and add a new SAP connection.

#### 4. Request License

The user can request a license from the Liquid UI App. Tap on **Request License**, you will be navigated to License Assistance page. The user can select any of the Page 4/8

following options to access the functionality of the Liquid UI App.

- Purchase Through In-App
- Make a Request
- Portal License Manager
- Tweet for Free Trial

<u>Click here</u> to know about Request License.

#### 6. Clear Cache
